PERMISSION TO USE

This thesis presents a partial fulfillment of the requirement for a postgraduate degree from Universiti Utara Malaysia. I agree that the university library may make it freely available for inspection. I further agree that the permission for copying of this thesis in any manner, in whole or in part, for scholarly purposes may be granted by my supervisor or, in their absence by the Assistant Vice Chancellor of the College of Arts and Sciences. It is understood that any copying or publication or use of this thesis or parts thereof for financial gain shall not be allowed without my written permission. It is also understood that due recognition shall be given to me and to Universiti Utara Malaysia for any scholarly use which may be made of any material from my thesis.

Requests for permission to copy or to make other use of materials in this thesis, in whole or in part should be addressed to:

**Assistant Vice Chancellor
College of Arts and Sciences
Universiti Utara Malaysia
06010 UUM Sintok
Kedah Darul Aman.**

ABSTRACT

This project is regarding the designing of conceptual and logical model of Hire Purchase Management System for Hire Purchase Company. The System will use client server system to run daily operations and able to smooth up the daily operation and reduce the operation cost as well. Prior to the development of the system, a study has been done so that the organization can gain real benefits from adopting a suitable Hire Purchase System. So, a Conceptual Model of the system has been made to simulate the model to determine the effectiveness of the system. The prototype will be developed know as Boon Motor Hire Purchase Management System (BMHPM). BMHPM able to control on the daily Hire Purchase transaction and also management system.

Keywords: *Boon Motor Hire Purchase Management System (BMHPM)*

ACKNOWLEDGEMENTS

I would like to express my deepest gratitude to my supervisor, Prof Madya Md Zahir Bin Mat Cha for his constructive suggestion, guidance, and consistence support during the development of the project. I would also like to thank his continuous faith and support in me. Without his encouragement and guidance, it will not be easy for me to reach this extend in completion my report.

Secondly, I would like to thank all my dearest family members, especially to my parents, brothers who have given me their full support in my study. Their full support remains the mainstay for me in overcoming all the difficulties in completing this study. Next I would like to thank all the lecturers who have taught me before throughout the Masters Degree course because the knowledge they imparted have allowed me to be more knowledgeable and thus in a better position to complete this research.

Lastly, I would like to thank all my friends who had given me support and helping me at times of difficulties, especially thanks to Mr Ang Boon Wan who guiding me in the process of completing this report.

CHAPTER 1

1.0 INTRODUCTION

Hire Purchase is a system of acquiring goods on credit whereby the seller of the goods is regarded as the dealer, the purchaser is regarded as the hirer and the finance company as the owner. The ownership of the goods bought on hire purchase does not pass to the hirer at the time of the hire purchase agreement or upon delivery of the goods. The ownership of the goods remains in the finance company until the hirer has fully settled the price agreed upon in the hire purchase agreement.

A hire purchase agreement, commonly known as H.P. agreement, in respect of the goods must be in writing and printed in type of a size not smaller than the type known as 10-point Times. Any oral agreement is not a valid hire purchase agreement.

The main legislation governing the hire purchase transactions in Malaysia is the Hire Purchase Act 1967, which came into force on 11 April 1968 after hire purchase became an increasingly popular method of acquisition.

Only the following goods can be bought on hire purchase in Malaysia:

- all consumer goods
- motor vehicles namely
 - invalid carriages
 - motor cycles
 - motor cars including taxi cabs and hire cars
 - goods vehicles where the maximum permissible laden weight does not exceed 2,540 kilograms buses, including stage buses

The most common type of hire purchase agreement in Malaysia is for the purchase of motor vehicle.

In this study, conceptual model will integrated into the Hire Purchase system of Boon Motor Enterprise (Kedah) Sdn. Bhd. The company is allocating in Alor Setar. Boon Motor Enterprise (K) Sdn. Bhd. is establishing in 1977. The main business is to sell motorcycle.
